ALCHEMY TECHNOLOGY GROUP WINS OKTA INTEGRITY PARTNER OF THE YEAR AWARD

Houston, TX <25 May 2018> –Alchemy Technology Group, was recognized as the winner of the "Okta Integrity Award 2018" at the annual Oktane18 Conference held in Las Vegas on May 22-24, 2018. This award is presented to the business partner that demonstrates honesty, decency, and respect in their relationship with Okta and in their commitment to supporting customers. Alchemy Technology Group was recognized for delivering as promised, consistent transparency, and complete alignment at every level.

"I'm incredibly happy to see Alchemy Tech Group win the Okta Global Integrity Award for Partners." noted Rodger Nichols, Regional Alliances Director – South Central US at Okta. "Their commitment to full transparency and laser focus on customer satisfaction perfectly aligns to Okta's values. We are proud to have them as a strategic partner." he added.

Alchemy's mission is to develop extraordinary trust based relationships with their customers and partners, creating transformative business outcomes. "Our relationship and trusted partnership with Okta has allowed us to support clients across all industries with secure access to do their most important work." said co-founding partner, Wes Davis. "Winning this integrity award is evidence that we are walking in our purpose and will continue to stand on our joint core value – Win with Integrity. Working collaboratively with our customers allows Alchemy to deliver tailored IT solutions that support and accelerate their business success," he added.
